Electronic
cigarettes

and e-liquid can contain **NICOTINE:**

addictive &
poisonous

Even a single drop of liquid nicotine can poison a child.

LESS THAN **1 DROP**

BABY

TODDLER

1 DROP

LESS THAN **2 DROPS**

CHILD

SIGNS OF POISONING

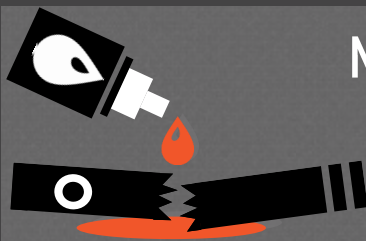

nausea

headache

dizziness

vomiting

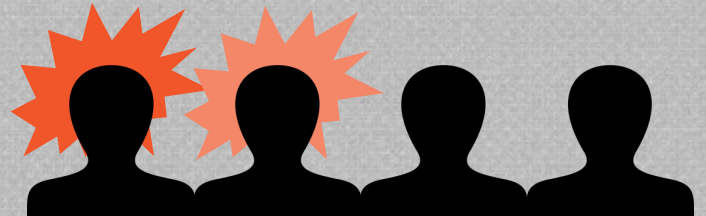

NICOTINE POISONING HAPPENS EASILY.

Nicotine in e-cigarettes and e-liquid can be absorbed through the skin or accidentally eaten.

25-50% of children **poisoned by nicotine** go to the ER.

Up & Away

Store e-cigarettes and e-liquid in a locked cabinet or far from the reach of children. Do not use around others.
