About the Learning Forums

Lutheran Medical Center and Jefferson County Public Health are working together with grant funds to offer information, technical assistance and resources to help providers address tobacco use with their consumers. Providers' Learning Forums are held once per quarter and include free lunch and opportunities to learn more about what you need to increase success with tobacco cessation. These services/resources are made possible through voter-approved Amendment 35 tobacco excise tax revenues.

*If you or your organization is interested in tailored support and technical assistance to assist with helping patients and clients quit tobacco, contact:
Jefferson County Public Health at [**dviveret@jeffco.us**](mailto:dviveret@jeffco.us) or 303-275-7555.*
